

Township of Franklin

Recycling Notice

March 2010

During these tough economic times it is important that everyone, residential and business alike support recycling programs outlined by our municipality. Many business operations and even some residents simply “don’t care” about recycling and what it can do for our entire township. This hurts all of our pockets!!

Once again we cannot stress the importance of recycling every item that is possible to recycle. Hundreds of thousands of dollars can be saved by recycling and not throwing it in your trash. A detailed recycling list is available on the Township website and our local cable channel as well as our Township offices.

Most importantly it must be understood that “**plastic bags**” cannot be accepted as a recycled material. They cannot be used to hold or contain any other types of recycled items. **ALL** recycled, cans, bottles, plastic jugs, newspaper etc. must be placed in recycling containers or buckets supplied by the Township, or a similar pail of your choice.

The Township’s recycling vendor has notified us that loads of recycling containing plastic bags will be **rejected** and it will be the Township of Franklin’s responsibility to remove all the plastic bags from the load.

Please help us by throwing all of your plastic bags in the trash and **DO NOT** use any of these plastic bags for any type of recycling purpose.

Your efforts will save tax dollars for all of us.

Thank You

Township of Franklin Public Works
